5. Data Security

5.1. Security Program

Licensor represents that, as of the Effective Date and continuing during the term of this Agreement, Licensor will establish and maintain adequate and appropriate environmental, security, and other safeguards. Licensor will follow a cyber-security framework of current standards and controls against relevant criteria such as those outlined by International Standards Organization ("ISO") 27001/27001, National Institute of Standards and Technology ("NIST"), Center for Internet Security ("CIS") Critical Security Controls, Control Objectives for Information and Related Technologies ("COBIT"), Open Web Application Security Project ("OWASP") or other acceptable industry standards, as approved by K-C in writing. This includes a comprehensive written information security program, including security procedures, practices, and safeguards and technical and organizational controls that are designed to (i) ensure the security and confidentiality of the K-C Information, including personal information while the K-C Information is in its possession, custody or control; (ii) prevent a breach or malicious code infection of the platform and/or services and protect against any anticipated threats or hazards to the security or integrity of the K-C Information;

(iii) protect against the unauthorized or unlawful access, use, monitoring, processing, or disclosure, and the unlawful or accidental alteration, destruction, loss, or damage of any K-C Information being processed by, stored by, or transmitted to or from, Licensor; (iv) ensure the proper return or disposal of K-C Information; and, (v) ensure that Licensor personnel and all subcontractors engaged by Licensor to assist Licensor in providing platform and services to K-C, if any, comply with all of the foregoing.

Such information security program shall be appropriate to the size, complexity, and the nature and scope of Licensor's activities under this Agreement, and to reasonably and appropriately protect the security, confidentiality, integrity, and availability of K-C Information that Licensor processes and shall provide for: (i) the security systems, computers, and technologies, including firewalls, intrusion detection, and encryption, including the use of encryption and other secure technologies in connection with any transfer, communications, or remote access connectivity involving K-C Information, (ii) physical security procedures, including physical access control, security guards, and regular monitoring of all work areas, (iii) background checks on Licensor personnel, (iv) restriction of use and copying of K-C Information on a "need-to-know" basis and only at authorized locations, (v) regular monitoring of the transport and storage of K-C Information, (vi) regular monitoring of password procedures, and (vii) regular and random monitoring of Licensor personnel providing services or working on K-C systems and programs. Licensor covenants that it will implement security practice improvements and patch security vulnerabilities in the platform and services as may be necessary to respond to evolving and newly discovered security threats and vulnerabilities. All high-risk vulnerabilities must be mitigated within thirty (30) days and all moderate risk vulnerabilities must be mitigated within ninety (90) days from the date vulnerabilities are formally identified by an accredited source such as the National Vulnerability Database ("NVD") or the software manufacturer. No less than annually, Licensor shall conduct an independent third-party audit of its information security program and provide such audit findings to K-C and shall implement any required safeguards as identified by such audits.

5.2. Platform and Services

Licensor represents and warrants that the platform and services have been designed, developed, tested, and maintained according to generally accepted industry standards and practices (meaning those reasonably expected of a diligent licensor providing similar platform and services to Fortune 500 companies) to appropriately safeguard the platform and services (including any K-C Information and personal information posted, transmitted, displayed, submitted, or generated by or through the platform or services) against accidental or unauthorized access and/or interference by third parties, intrusion, theft, destruction, loss or alteration.

Licensor abides by a policy of least privilege for granting logical access to systems and for employees by granting access only to the systems they are required for their job functions. This includes operating system permissions, file access, user accounts, application to application communications, APIs, and other relevant authorization components.

Licensor shall ensure proper data segregation of K-C Information from that of other Licensor's customer data. Application instances and data stores shall be architected with appropriate measures to prevent unauthorized access to K-C data. This involves hardening the data store as well as the application to ensure data segregation.

Both Licensor and K-C agree to promptly notify each other about any litigation, eDiscovery, or preservation hold activities regarding K-C-owned data. Both Licensor and K-C will reasonably cooperate under the governing law and regulations with regard to any litigation, eDiscovery, or preservation hold activities.

Licensor shall protect the confidentiality and integrity of K-C's Information in regard to data in transit, data in use, and data at rest so that it is not altered or tampered with thus preserving the integrity of the data. Licensor will also promptly notify K-C of any circumstances where K-C data may be accessed or seized due to local laws and regulations or applicable reasons and provide K-C with the opportunity to intervene where possible.

Licensor will notify K-C of any geographical changes for hosting and storage of K-C-owned data at least ninety (90) days prior to making such change and at least one hundred eighty (180) days prior to making such change if the change includes a change in country.

K-C shall have the right, on an annual basis and at its sole expense, to have a qualified third party perform an audit of Licensor's security practices and controls; the scope of which shall measure standard operating procedures and software design, development and testing practices against relevant criteria such as those outlined by ISO 27001/27002, NIST, CIS Critical Security Controls, COBIT, MITRE Corporation Common Weakness Enumeration ("CWE"), Software Engineering Institute's Computer Emergency Response Team ("CERT") Secure Coding Standards, or other acceptable industry standards. Following completion of such audit, K-C shall notify Licensor in writing of any deficiencies in comparison to such standards ("Deficiencies"). Licensor shall, within thirty (30) days of such written notification, either correct such Deficiencies or provide K-C with a plan reasonably acceptable to K-C for remediating the Deficiencies. Unless and until (i) the Deficiencies are remediated, or (ii) an acceptable plan for remediating such Deficiencies is agreed to by the parties, K-C may exercise such rights and remedies it deems appropriate under the circumstances, including, without limitation, offsetting the cost of the subject audit against payments otherwise due Licensor. Further, such Deficiencies that have not remediated shall be deemed a material breach of the Agreement. Licensor shall bear all reasonable costs for retesting performed to verify the remediation of any Deficiencies.

5.3. Encryption

Licensor shall appropriately encrypt all data in transit utilizing strong cryptographic mechanisms such as secure shell protocol ("SSH"), tokenization, certificates, public key infrastructure ("PKI"), virtual private network ("VPN") or transport layer security ("TLS"). Data in transit is commonly delineated into two primary categories – data that is moving across public or "untrusted" networks such as the internet, and data that is moving within the confines of private networks such as corporate local-area networks ("LANs").

When Licensor hosts or stores K-C-owned Information, Licensor will apply encryption of data at rest. Data at rest is data that is commonly located on desktops and laptops, in databases and on file servers. In addition, subsets of data can often be found in log files, application files, configuration files, and many other places.

Encryption solutions will be deployed through the use of Federal Information Processing Standard ("FIPS") 140-2 approved encryption mechanisms. Licensor shall provide an automated remote key with an established update method that protects the confidentiality and integrity of the cryptographic keys.

6. Security Incidents

Upon becoming aware of a security incident involving K-C Information Licensor shall (i) immediately investigate the reasons for and circumstances surrounding such security incident, preserving any potential forensic evidence relating to the security incident; (ii) as quickly as circumstances permit, plan and take reasonable and appropriate actions to identify and mitigate all vulnerabilities that were exploited, remove any malicious code, inappropriate materials and other components and implement those security measures necessary to ensure that a similar security incident cannot occur and restore the platform and/or service to normal operation; (iii) within twelve (12) hours after discovery provide to K-C both oral and written notice of the security incident, (iv) within two (2) days of discovery, provide a written report to K-C summarizing in reasonable detail when and how the breach was discovered; the K-C Information that was accessed, used or disclosed; the person(s) who accessed, used and disclosed and/or received the K-C Information (if known); the impact on K-C and/or individuals affected by such security incident; the nature and duration of the security incident; the cause thereof, and the corrective action taken or proposed to be taken by Licensor; (v) cooperate with K-C to immediately contain and remediate, to the extent practicable, the harmful effects of the subject security incident; (vi) consult in good faith with K-C regarding remediation efforts; and (vii) make all reasonable efforts to assist and cooperate with K-C in K-C's, or any government body's, investigation of any security incident.

Pursuant to such consultation, Licensor shall undertake remediation efforts at its sole expense and reimburse K-C for K-C's reasonable costs or expenses (including, without limitation, administrative costs, costs of legal action and attorney engagement, and payment of fines, penalties, settlements, and damages) incurred in connection with the security incident and remediation efforts. Remediation efforts required by law (applicable to K-C, Licensor or both) must be carried out and are not dependent upon the completion of the consultation process, although both parties shall use good faith efforts to discuss remediation efforts required by law during the consultation process.

Licensor shall keep K-C reasonably informed regularly, either on a daily basis or with a frequency approved by K-C, of the progress of its security incident response activities. Licensor shall not make any public announcement (including, without limitation, website postings, and press releases) or notify affected individuals regarding such security incident without K-C's prior written approval, which approval shall not be unreasonably withheld.

7. Business Continuity

As part of the services, Licensor is responsible for maintaining a backup of K-C Information, for an orderly and timely recovery of such data in the event that the services may be interrupted. Procedures must be established and kept up to date to ensure that essential functions can continue during and after a disaster. Licensor agrees to make incremental and full backups and follow business continuity and disaster recovery procedures from relevant cyber-security frameworks such as ISO 27001 or the NIST. Licensor will perform a yearly business continuity test to ensure systems can provide orderly and timely recovery. Upon K-C's request, Licensor will share the results of the test, including reasonable detail and information to provide K-C assurance that processes and procedures are functioning effectively.

8. Indemnification; Limitation of Liability

8.1. Indemnification by Licensor

Licensor will defend, indemnify and hold K-C and its affiliates, shareholders, directors, officers, employees, and other agents harmless from and against any and all claims, losses, liability, damages, costs, and expenses (including attorney's fees, expert witness fees, court costs, and expenses incidental thereto) directly or indirectly arising from or related to (i) any actual or alleged claim that the platform, documentation or services, or their use, sale, disclosure, execution, reproduction, modification, adaptation, distribution, performance or display, infringes, misappropriates, or violates any third party's patents, copyrights, trade secret rights, trademarks, or other intellectual property or proprietary rights of any nature in any jurisdiction in the world; (ii) any claims arising out of the negligence or intentional misconduct of Licensor, its employees or subcontractors, (iii) any claims arising out of the failure of Licensor to perform its obligations imposed herein; or (iv) any claims arising out of or relating to any act, error or omission, or misconduct of Licensor, its officers, directors, agents, employees, and subcontractors, during the performance of this Agreement, including, without limitation, claims arising out of or relating to bodily injury (including death) or damage to tangible personal or real property. K-C shall promptly notify Licensor of all such claims. Licensor, at its option, may control the defense of any claim subject to the foregoing indemnity and K-C will cooperate with Licensor in such defense in all reasonable respects, at no cost to K-C. In no event shall the Licensor settle any such third party claim by making any agreement that would cause K-C to lose any rights under this Agreement without K-C's prior written consent. If K-C's continued use of the platform or services is threatened as a result of any such infringement, misappropriation, or violation of third party rights, Licensor shall, at K-C's option and at no charge to K-C, and in addition to K-C's other rights and remedies, (a) secure for K-C the right to continue using the platform and services as allowed under this Agreement, (b) modify or replace the infringing components of the platform and services so that they are non-infringing with no loss or degradation of features, functionality, or performance, or (c) refund to K-C all amounts paid by K-C relating to the platform and services. Licensor shall pay to K-C any sums due within thirty (30) days of written notice by K-C.

8.2. Indemnification by K-C

K-C will indemnify and hold Licensor harmless from and against any and all claims, losses, liability, damages, costs, and expenses (including attorney's fees, expert witness fees, and court costs) directly or indirectly arising from or related to any third party claim that the K-C Information infringes any copyright, patent or other intellectual property right or misappropriates any trade secret of a third party.

8.3. Limitation of Liability

EXCEPT FOR LICENSOR'S OBLIGATIONS UNDER SECTION 8 (Indemnification), NEITHER PARTY WILL BE LIABLE TO THE OTHER FOR ANY LOST REVENUE OR INDIRECT, PUNITIVE, EXEMPLARY, SPECIAL OR CONSEQUENTIAL DAMAGES, EVEN IF SUCH PARTY HAS BEEN ADVISED AS TO THE POSSIBILITY OF SUCH DAMAGES. NOTWITHSTANDING THE FOREGOING, IF ANY CLAIM AGAINST LICENSOR IS A CLAIM COVERED BY ANY INSURANCE POLICY MAINTAINED BY LICENSOR, ANY RECOVERY OF PROCEEDS UNDER SUCH POLICY SHALL BE PAID TO LICENSEE TO THE EXTENT LICENSEE'S DAMAGES EXCEED THE FOREGOING LIMITATION OF LIABILITY. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT (A) THERE SHALL BE NO LIMITATIONS ON LICENSOR'S LIABILITY ARISING UNDER THIS AGREEMENT OR OTHERWISE RELATING TO PRIVACY, SECURITY, INTEGRITY OR CONFIDENTIALITY OF PII; (B) LICENSEE SHALL NOT BE PRECLUDED FROM IMMEDIATELY PURSUING ANY RIGHTS OR REMEDIES IT MAY HAVE UNDER OR RELATING TO THIS AGREEMENT; AND (C) LICENSOR SHALL BE LIABLE FOR REIMBURSEMENT OF COSTS AND EXPENSES FOR REMEDIATION EFFORTS REGARDLESS OF WHETHER SUCH AMOUNTS ARE CHARACTERIZED BY ANY PARTY, GOVERNMENT BODY OR OTHER THIRD PARTY AS DIRECT, INDIRECT, CONSEQUENTIAL, SPECIAL, PUNITIVE OR OTHER DAMAGES.

9. Term and Termination

9.1. Term
